12<sup>th</sup> September 2018

Dear Parent/Carer

I am writing to inform you of an initiative that we will be introducing to Year 6 this year. As part of the central focus of the Maths department to raise progress and support pupils, we will be undertaking a program of interventions designed to support and challenge pupils and help them achieve their full potential.

During these intervention sessions pupils will be working in small, personalised groups on a range of key topics in order to help them increase their understanding of Mathematical concepts. These sessions will take place during assembly time twice a week and will commence from Monday 17<sup>th</sup> September 2018. After each pupil progress check we will review the impact of the interventions and evaluate their effectiveness.

Each pupil who receives this intervention will be addressed either by myself or the teacher leading each group. This is planned in order to ensure that pupils understand the full details regarding the content of the sessions and the purpose of their involvement within them.

If there are any questions or queries, please do not hesitate in contacting me here at the Academy.

Thank you for your anticipated support this venture which I am certain will yield great benefits for our pupils.

Yours sincerely

Mr S. Tunstall

Faculty Leader of Mathematics
