20th May 2019

Dear Parent/Guardian

Space Dome

On Monday 10th June, your child's class will be receiving a visit from Space Dome. During the session the presenter will guide the pupils through a tour of the night sky in a portable planetarium. This will include the highlighting of seasonal constellations and the cultural impact that they had.

During the session there will be flashing lights and images; if your child suffers from a condition that would react adversely to this lighting, please contact the school office for further information.

We are sure that your child will enjoy this experience and hope that this will stimulate an interest in other environmental subjects as well as inspiring their own creative writing.

Many thanks

Mr Jervis
Faculty Leader English Dept.
